VAN DOREN IN GRANITE

Super-sleuthing Central Intelligence Agency didn't plan it that way—but it has enshrined Charles Van Doren for the ages.

President Eisenhower laid the cornerstone of new CIA building this week. It contained microfilm copies of dozens of latest newspapers, some that came out on day of the ceremony.

So—historians of the future will be greeted by many pictures of Charlie and his sad story; may conclude world's biggest problem in 1959 was faking on television.

Reading the papers along with inscription on the CIA building they'll be downright confused. On front of the building, at Allen Dulles' personal request, will be inscribed:

"Ye shall know the truth, and the truth shall make you free. John VIII-32.
